Attachment 1

Joiner Limited Partnership (“Joiner”) is the fee title owner of real property located in Placer County, California, identified by Assessor’s Parcel Number 021-310-097.

Joiner’s claim is for just compensation pursuant to the Takings clause of the Fifth Amendment to the United States Constitution and Article I, section 19 of the California Constitution, in an amount to be determined in accordance with the provisions thereof, and in conjunction with provisions of the Eminent Domain Law (Title 7 of Part 3 of the California Code of Civil Procedure, CCP 1230.010, et seq.).

The Debtor filed a Complaint in Eminent Domain on October 17, 2017 (Placer County Case No. SCV 0040156), and a First Amended Complaint on January 31, 2018, seeking certain permanent and temporary rights described therein. A copy of the Second Amended Complaint is supplied herewith as Attachment 2.

The Debtor obtained the right to enter upon and take possession and use of these property rights and to fully possess and use said property rights effective February 9, 2018, pursuant to Court Order entered on January 31, 2018. A copy of the Court Order is supplied herewith as Attachment 3.

For purposes of early possession, a court’s “determination of the plaintiff’s right to take the property by eminent domain is preliminary only.” Legislative Committee Comments—Assembly, 1975 Addition, to CCP § 1255.410. “The granting of an order for possession does not prejudice the defendant’s right to . . . contest the taking.” *Id.* And a final order of condemnation, which would effect a transfer of formal title to the rights sought to be permanently acquired, will be made only upon payment of just compensation, once the right to take has been determined. See CCP § 1268.030. Moreover, absent payment of just compensation, the right of possession is subject to revocation. Therefore, Joiner’s claim is secured by its retained fee interest and right to recover possession in the event that the Debtor fails to establish the right to take or to pay just compensation in full.

Case No. SCV 0040156

**FIRST AMENDED COMPLAINT IN
EMINENT DOMAIN**

JURY TRIAL DEMANDED

APN: 021-310-097

Plaintiff **PACIFIC GAS AND ELECTRIC COMPANY** (hereinafter referred to as
"PG&E") alleges as follows:

1. PG&E is a public utility corporation, duly organized and existing under and by
virtue of the laws of the State of California, with its principal place of business in the City and
County of San Francisco.

2. The names and capacities of the known defendants and their possible interests in
the property at issue (described in Paragraph 4) are set forth below for the convenience of the
Court. These data are based on information and belief, and are not allegations by which PG&E
intends to be bound.

Attachment 2

Defendant

Apparent Property Interest

Joiner Limited Partnership,

Fee ownership interest.

3. PG&E does not know the true names or capacities of defendants sued herein as DOES 1 through 50, inclusive, nor the interests which they claim in the property, if any. PG&E will, upon ascertaining their true names, substitute the true names for such fictitious names by amendment to this Complaint.

4. Defendants, and each of them, claim some right, title or interest in a parcel of vacant/unimproved real property situated in Placer County, California, located on the southwest corner of Nicolaus Road and Joiner Parkway, and more particularly described as follows:

PARCEL 4 OF PARCEL MAP NO. 2000-75 FILED IN JUNE 20, 2000 IN MAP BOOK 30 OF PARCEL MAPS, AT PAGE 22, IN THE OFFICE OF THE PLACER COUNTY RECORDS.

EXCEPTING THEREFROM, ALL THAT PORTION DESCRIBED IN THE DEED TO PACIFIC GAS AND ELECTRIC COMPANY RECORDED MAY 13, 2009, INSTRUMENT NO. 40004, PLACER COUNTY RECORDS.

(Placer County Assessor's Parcel Number 021-310-097, and hereafter the "Property.")

BACKGROUND

5. PG&E constantly strives to improve and enhance the safety its operations, as well as to improve and protect the reliability of utility service. With its natural gas transmission pipelines, one such safety feature is the installation of remotely controllable and automated valves. These automated values enhance electronic monitoring of the natural gas transmission system to identify operational issues, and to prevent pipeline ruptures. Should a rupture occur, automated values allow PG&E to quickly locate, isolate, and minimize damage.

6. Natural gas pipeline safety regulations use the concept of High Consequence Areas ("HCAs"), to identify specific locales and areas where a pipeline rupture/release could have the most significant consequences. An equation has been developed based on research and experience that estimates the distance from an adverse event at which personal injury or

Attachment 2

1 significant property damage could occur. This distance is known as the potential impact radius (or
2 "PIR"). Natural gas transmission operators, like PG&E, must calculate the PIR for all points
3 along their pipelines and evaluate corresponding impact circles to identify what population is
4 contained within each circle.

5 7. Locations for valve automation are selected after an internal review that
6 evaluates a number of factors, including the HCA classification, and the PIR should a rupture
7 occur.

8 8. Here, PG&E has identified natural gas transmission pipe line L-123 for remote
9 actuation and valve automation. L-123 is already physically present on the Property pursuant to
10 existing PG&E easements. Based on the alignment of these lines and the topography of the site,
11 the Property is the ideal location for these facilities.

12 9. Additionally, PG&E's Transmission Integrity Management Plan ("TIMP") is
13 dedicated to making its natural gas transmission lines "piggable" which means to allow the
14 passage of In-Line Inspection ("ILI") tools. This will allow PG&E to assess the integrity of its
15 natural gas transmission pipelines by running a tool inside of the pipeline that can detect damage
16 or corrosion.

17 10. PG&E, in addition to holding a fee interest to land that was formerly part of the
18 Property, owns a series of existing easements on the Property for its electrical and natural gas
19 transmission facilities, however, they do not presently provide the necessary rights or sufficient
20 area needed for the installation of the new facilities, nor do they accommodate the space needs for
21 the ILI tools, modern facilities and equipment, or pipeline repair or maintenance. In determining
22 property needs, PG&E considers factors such as the diameter of the pipe or the gas transmission
23 facilities at issue, construction equipment working space requirements, and construction working
24 space for the pipe trench and spoil pile.

25 11. Here, due to the anticipated scope of construction and the installation of the new
26 valve station and ILI facilities, PG&E has determined that it is necessary to acquire additional
27 easement rights on the Property.

Attachment 2

PROJECT DETAILS

12. PG&E is undertaking a project entitled V-252 L-123 MP 13.57 Lincoln Junction (the "Project"). PG&E's present intended scope of work includes the installation of automatic shut-off valves, and remote operated valves, including associated facilities. Specifically, PG&E seeks the following rights:

PERMANENT RIGHTS

An exclusive easement and right of way to excavate for, install, construct, replace (of the initial or any other size), remove, maintain and use aboveground and underground facilities, consisting of but not limited to, pipes with necessary and proper valves with aboveground gearing, together with such other appliances, fittings, devices, equipment, associated supports, concrete pedestals and pads, and fixtures, necessary to any and all thereof, as PG&E deems necessary for the purpose of launching and/or receiving internal pipe line devices used to inspect, maintain and monitor PG&E's natural gas pipe line system, and for metering, regulating and discharging gas into the atmosphere within, to install concrete curbing on, to cover with bitumastic pavement and to enclose with a fence, the hereinafter described "Meter Lot" lying within Defendant's lands which are situate in the County of Placer, State of California, and described and designated Lands in EXHIBIT A attached hereto and part hereof:

The aforesaid Meter Lot is described as follows:

PARCEL 1 described in EXHIBIT A and depicted on EXHIBIT B-1 attached hereto and made a part hereof.

The right at any time, and from time to time, to excavate for, construct, install, repair, reconstruct, replace (of the initial or any other size), remove, maintain and use facilities for the transmission and distribution of electric energy and for communication purposes, consisting of one or more lines of underground wires and cables, conduits, pipes, manholes, service boxes and electrical conductors, together with all necessary appliances and fixtures for use in connection therewith, over under and across PARCEL 2 described in EXHIBIT A and depicted on EXHIBIT B-2 attached hereto and made a part hereof.

A non-exclusive easement and right to use as a staging area for construction equipment, as PG&E may from time to time deem necessary, for the purposes of effectuating the launching and receiving of pipe line in line inspection devices, within said PARCEL 3 (the "Pipe Line In Line Inspection Equipment (ILI) Staging Area") described in EXHIBIT A and depicted on EXHIBIT B-3 attached hereto and made a part hereof.

Attachment 2

1 A right of way for ingress to and egress from said Meter Lot across the
2 parcels of land described as follows:

3 PARCEL 4 AND PARCEL 5 described in EXHIBIT A and depicted on
4 EXHIBIT B-4 and EXHIBIT B-5 attached hereto and made a part hereof.

5 The right, from time to time, to trim or to cut down any and all trees and
6 brush now or hereafter within said easement area, and shall have the further
7 right, from time to time, to trim and cut down trees and brush along each
8 side of said PARCEL 1(Meter Lot), PARCEL 2 and PARCEL 3 which now
9 or hereafter in the opinion of PG&E may interfere with or be a hazard to the
10 facilities installed hereunder, or as PG&E deems necessary to comply with
11 applicable state or federal regulations.

12 Defendant shall not erect or construct any building or other structure, or drill
13 or operate any well, or construct any reservoir or other obstruction on said
14 PARCEL 1 (Meter Lot), PARCEL 2 and PARCEL 3.

15 PG&E agrees to indemnify Defendant against any loss and damage which
16 shall be caused by any wrongful or negligent act or omission of PG&E or of
17 its agents or employees in the course of their employment, provided,
18 however, that this indemnity shall not extend to that portion of such loss or
19 damage that shall have been caused by Defendant's comparative negligence
20 or willful misconduct.

21 Because PG&E's easement over PARCEL 1 (Meter Lot) is exclusive,
22 Defendant shall not grant any easement or easements on, under or over said
23 PARCEL 1 (Meter Lot) without the written consent of PG&E.

24 The provisions hereof shall inure to the benefit of and bind the successors
25 and assigns of the respective parties hereto.

TEMPORARY RIGHTS

26 The temporary right to use for working, laydown and staging areas, including the right to
27 locate construction trailers and construction equipment thereon, and the temporary right to
28 enclose with a fence, the area depicted on the map attached hereto as EXHIBIT C, and
more particularly described on EXHIBIT C-1. These temporary rights shall expire on
December 9, 2018, or when PG&E completes construction of the Project, whichever is
sooner.

13. Because PG&E already has existing facilities on and/or adjacent the Property,
this location is ideal for the Project.

Attachment 2

1 14. PG&E has authority to exercise the power of eminent domain under Public
2 Utilities Code sections 612 and 613, and Code of Civil Procedure sections 1230.010, et seq., and
3 1240.120. Exercise of this power is proper in this case.

4 15. The rights/property sought to be condemned for the Project are necessary for the
5 project and the public good. The Project is planned and located in a manner that is the most
6 compatible with the greatest public good and with the least private injury. PG&E has made the
7 offer required by Government Code section 7267.2 to the owners of the Property. PG&E has also
8 deposited with the State Condemnation Deposit Fund probable just compensation for the
9 easement rights being acquired.

10 16. WHEREFORE, PG&E prays that the permanent and temporary property interests
11 and obligations as herein described, and as depicted on EXHIBIT A, EXHIBITS B-1 through B-
12 5, and EXHIBITS C through C-1, be condemned for the use of PG&E, that just compensation due
13 to the Defendants for the taking of this property be ascertained, that any liens and encumbrances
14 against said property be deducted from the judgment, and that PG&E have such other and further
15 relief as the Court may deem necessary and proper.

PACIFIC GAS AND ELECTRIC COMPANY

SUPERIOR COURT OF CALIFORNIA

COUNTY OF PLACER

**PACIFIC GAS AND ELECTRIC
COMPANY,**

Plaintiff,

v.

**JOINER LIMITED PARTNERSHIP; and
DOES 1 through 50 inclusive,**

Defendants.

Case No. SCV 0040156

**~~(PROPOSED)~~ ORDER ON STIPULATED
EX PARTE APPLICATION FOR THE
FILING OF A FIRST AMENDED
COMPLAINT, AND FOR PREJUDGMENT
POSSESSION OF PROPERTY
(CCP § 1255.410)**

APN: 021-310-097

Date: January 31, 2018
Time: 8:00 a.m.
Dept: 42

The Court, having received and reviewed the Complaint on file in this proceeding, and the stipulated ex parte application of the parties, it appears, and the Court determines that:

1. PG&E may file a first amended complaint. It shall do so within 5 court days of entry of this order. Joiner LP's existing Answer, filed on or about December 17, 2018, shall remain in effect as the responsive pleading to the amended complaint.

2. PG&E is entitled to acquire the Property described in the Complaint by eminent domain, and to take possession of the Property.

Attachment 3

1 3. PG&E has deposited the amount of \$38,400 as probable just compensation to be
2 awarded in this proceeding with the State Condemnation Deposits Fund. This amount is
3 sufficient to satisfying the requirements of Code of Civil Procedure section 1255.010.

4 4. There is an overriding need for PG&E to possess the Property prior to the issuance
5 of final judgment in this matter, and PG&E will suffer a substantial hardship if the application for
6 possession is denied or limited.

7 5. The hardship PG&E will suffer if possession is denied or limited outweighs the
8 hardship to Defendants or occupants that would be caused by granting the order for possession.

9 THEREFORE, IT IS HEREBY ORDERED pursuant to Code of Civil Procedure section
10 1255.410 et seq., that PG&E is authorized and empowered to enter upon and take possession and
11 use of the property rights described in the Complaint for those purposes set forth in the
12 Complaint, and to remove therefrom any and all persons, obstacles, improvements or structures of
13 every kind or nature situated thereon and to fully possess and use said property rights for the
14 purposes set forth in the Complaint. PG&E shall serve this order within 2 court-days on
15 Defendants. The order for possession shall become effective February 9, 2018.

16 The pending hearing on PG&E's motion for prejudgment possession, currently set for
17 8:30 a.m., on February 1, 2018, in Department 43, is vacated as moot.
